

# Softbreath Vapor permeable

## Datasheet

**Quality Covers Softbreath is a self-adhesive and slightly breathable covering material.**

The vapor-permeable film allows moisture to pass through from the underside, while the top side remains completely liquid-proof.

| Specificaties           |   |
|-------------------------|---|
| M <sup>2</sup> per roll | 0,67m x 37,3m= 25m <sup>2</sup><br>1m x 25m<br>1m x 50m               |
| Grammage                | 160 gr/m <sup>2</sup> +/- 10% tolerance                               |
| Vapor permeability      | 233 gr/ 24 hours / m <sup>2</sup>                                     |
| Packaging               | Packed in plastic bags, in box, on wooden europallets                 |
| Color                   | Blue  |
| Usability               | Max. 1 month (up to 40°C)   |
| Storage                 | Dry and protected from moisture, preferably in the original packaging |
| Shelf life              | Max. 12 months (at room temperature, store in a dry place)            |

### Area of application

- Freshly laid ceramic tile floors
- Freshly bonded wood, parquet and laminate flooring
- Non-flat subfloors such as stairs
- Indoor use

### Properties

- Vapor permeable
- Liquid-proof
- Self-adhesive
- Leaves no glue residues
- Shock-absorbing

# Softbreath Vapor permeable

## Datasheet

### Application

- The substrate must be dry, clean and dust-free
- Switch off the underfloor heating
- Lay the product flat on the subfloor with the self-adhesive side facing downwards
- Overlap by 10 cm
- Always test beforehand whether the product is suitable for the substrate

### Notes

Softbreath is not resistant to aggressive substances; the substrate must be permanently dry, clean and free of dust and solvents. If the breathable fleece is damaged, it must be replaced.
